

**GOODBYE,
CORGI GAS
REGISTER.**

**HELLO,
GAS SAFE
REGISTER!**

WHAT

is Gas Safe Register?

Gas Safe Register™ is the new hallmark for gas safety in Great Britain. From April 1st 2009, Gas Safe Register replaces the CORGI gas registration scheme as the official gas safety body.

So, from 1st April, by law, only Gas Safe registered engineers should carry out work on gas appliances or installations in your home.

WHY

do I need to use a Gas Safe registered engineer?

It's all about safety. To make sure that gas appliances such as boilers, fires, ovens and hobs are installed, maintained and serviced safely, you should employ a Gas Safe registered engineer to carry out the work.

If someone other than a Gas Safe registered engineer does the gas work in your home, you could be risking the safety of your family and your property.

HOW

do I find a Gas Safe registered engineer?

Finding a Gas Safe registered engineer is easy. All registered engineers are listed on our website. Visit www.GasSafeRegister.co.uk or call **0800 408 5500** and our advisers will be pleased to help you find a local engineer who is on the Gas Safe Register.

How do I check my engineer is on the Gas Safe Register?

ALWAYS ASK FOR THE CARD

All Gas Safe registered engineers have an ID card with their licence number and a photograph. The licence number is easily verified on the website or by phone and we will get back to you with confirmation of the engineer's name.

If you think your engineer is not registered, just call 0800 408 5500 or let us know via our website.

IN AN EMERGENCY

If you smell gas or think there might
be a gas leak: turn off the gas at
the meter, extinguish naked flames,
open windows and leave the area.
Seek medical advice if you feel
unwell. Call the Gas Emergency
